DITSHICK TRANSLATIONS

Fucking up your favorite doujinshi since CURRENT YEAR

Artist: Sakurada Tomo
Scans: D-Morning (digital release)

This is the first chapter of a one-shot being trialed on Morning's digital service. I am not aware of its fate - at the end, the mangaka encourages the reader to vote in a poll of some sort. I have searched up and down for it but I can't find it anywhere; it's possible it is only available to D-Morning subscribers. I really enjoyed it so I hope it gets picked up. Aside from that, Sakurada also posts similar gag manga featuring guys in all sorts of antique full-body armor on Twitter, so I might translate those later.

As for the manga itself, I went a little nuts with the font. I couldn't help myself, and I hope you will forgive me. I wanted to try per-character fonts to improve readability and ended up overdoing it a bit.

TL Notes:

Pg. 2 - The Armor literally says "my lady" (マイレディ) in katakana. I hope my version wasn't too meme-heavy for your taste.

Pg. 7 - When the Armor replies to the OL regarding electricity, he uses katakana instead of the kanji she used, indicating unfamiliarity. I tried to convey this in English with "elec-wha-city!?"
